Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to create comics easily. • I need good stories and visuals. • It should save my time.	THINKS • Can AI make creative stories? • Will the comic look professional? • Is it easy for beginners?
PERSONA NAME <i>Student / Content Creator (AI Comic User)</i>	
DOES • Writes or selects a story idea. • Uses AI to generate comic content. • Reviews and shares the final comic.	FEELS • Excited to create comics. • Curious about AI results. • Happy when the output looks good.
