

## No. of Functional Features Included in the Solution

|               |                   |
|---------------|-------------------|
| Date          | 30 September 2026 |
| Team ID       | SWTID-2026-3750   |
| Project Name  | ComicCraftAI      |
| Maximum Marks | 5 Marks           |

### Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

| S.No | Feature Name         | Feature Description                                | Module / Component | Status (Done / In Progress / Pending) | Marks Contribution |
|------|----------------------|----------------------------------------------------|--------------------|---------------------------------------|--------------------|
| 1    | User Authentication  | Secure user registration and login                 | Account Mgmt       | Done                                  | 0.75               |
| 2    | AI Art Generation    | Generating comic art from prompts                  | Core AI            | Done                                  | 1.0                |
| 3    | Panel Layout         | Automated and custom panel layout tools            | Editor             | Done                                  | 0.75               |
| 4    | Text Dialogue        | AI-assisted dialogue writing and character mapping | Storytelling       | Done                                  | 0.5                |
| 5    | Comic Book Export    | Final project export to pdf, epub formats          | Export             | Done                                  | 0.5                |
| 6    | Character Continuity | Maintaining AI-character design consistency        | AI Engine          | Done                                  | 0.75               |
| 7    | Scene Composition    | AI-guided scene structuring                        | Core AI            | In Progress                           | 0.5 (estimated)    |
| 8    | Voice-to-Dialogue    | Transcribing speech to dialogue bubbles            | Editor             | Pending                               | 0.25 (estimated)   |

Feature Summary:

| Metric                             | Count / Value |
|------------------------------------|---------------|
| Total Features Planned             | 18            |
| Total Features Implemented         | 15            |
| Core / Must-Have Features          | 10            |
| Additional / Nice-to-Have Features | 5             |
| Features Tested & Verified         | 12            |

|                                    |    |
|------------------------------------|----|
| Additional / Nice-to-Have Features | 5  |
| Features Tested & Verified         | 12 |

Feature Category Breakdown:

| S.No | Category                  | Features in Category | Example Features                                                 |
|------|---------------------------|----------------------|------------------------------------------------------------------|
| 1    | User Interface (UI)       | 6                    | Dashboard View, User Profile Page, Form Input Fields             |
| 2    | Backend / Logic           | 5                    | Data Processing Service, Task Queue Management, Validation Logic |
| 3    | Database / Storage        | 3                    | User Profile DB, Content Storage DB, Backup Scripts              |
| 4    | API / Integration         | 2                    | Payment Gateway API, Third-Party Auth Integration                |
| 5    | Security / Authentication | 2                    | User Login/Logout, Password Reset Flow, Session Management       |
